Permac Industries is a precision small part machine shop, providing global aerospace, medical, high-reliability industrial, and commercial customers' benchmark quality and service since 1966.

PERMAC Industries is PERFect MACHining

Certified to AS 9100:2009 Rev C, ISO 9001:2008, ISO 13485, and WBENC. We provide precision CNC milling, CNC turning, CNC EDM hole drilling, Swiss and screw machining. Permac is your strategic source for prototypes through high production volume turned and milled parts. With close to 50 years of precision metal and plastic machining experience, efficient and state of the art machines and equipment, the Permac team will be a valuable supplier and resource. If your goals are highest OTD, lowest DPPM, reducing inventory and overall costs, Permac will provide the focus and support to meet your needs and exceed expectations. There is always room for a supplier that will have a positive impact in your organization, company and industry.

NAICS codes: 332710, 332721, 332912, 332919, 332995, 336412, 336413, 336419

Precision Machining Sourcing Checklist

As a tool and resource to better understand our capabilities, we are pleased to provide the following checklist:

- ✓ **Experience** – Permac has been a successful machine shop for close to 50 years
- ✓ **Certifications** – AS9100:2009 Rev C, ISO 9001:2008 & ISO 13485
- ✓ **Supplier Diversification** – WBENC certified small business
- ✓ **Customer Scorecard Performance** – >99% on time, with < 500 DPPM
- ✓ **Lead time** – Average 4-6 weeks ARO, we can also manage your inventory!
- ✓ **Quote Processing Time** – under 3 days on new projects
- ✓ **Primary Markets** – Aerospace, Hi-Reliability Industrial, Medical, Commercial
- ✓ **Customer Applications** – Sensors, Actuators, Controls, Connectors, Hermetics, etc.
 - Engines, Airframes, Avionics, Arms, Missiles, Processing Equipment, Etc.
- ✓ **Machining Capabilities** – CNC Milling & Turning, CNC Swiss, Screw, CNC EDM Drilling
 - **Turning** – up to 2 5/8 bar feed capacity
 - **Milling** – 64 in² with full 4th axis capability
 - **Swiss Machining** - .787 dia. for true done in one parts
 - **CNC Hole Driller** - .013 - .118 diameter
 - **Acme Screw Machining cell**
- ✓ **Prototype Support** – Dedicated milling and turning cell for parts less than two weeks
- ✓ **DFM Support** – Provide cost saving suggestions to reduce cost (machining & materials)
- ✓ **Metals**
 - Aluminum, Copper, Brass, Etc.
 - **Exotics** – Inconel, Monel, Invar, Titanium
 - **Stainless Steels** – 302, 303, 304, 316, 347, 17-4 PH, Etc.
- ✓ **Plastics** – Delrin, PTFE, PVC, Acrylic, Etc.
- ✓ **Assembly Capabilities** – Light assembly with common shop tools and equipment
- ✓ **Customer Support Programs** – Supplier Managed Inventory Solutions
- ✓ **Size of facility** – 35,000 ft² modern, clean, and organized for optimum flow
- ✓ **The Team** – Permac takes great pride in our focused & cheerful customer support
 - **Responsive** – Phone calls and e-mails are promptly replied to
 - **Commitment** – Always meet and/or exceed customer expectations
 - **Provide** – The best value with overall lowest cost of ownership

[We appreciate your business and support!](#)
